EDUCATION

Farmingdale State College, Farmingdale, NY

Bachelor of Science in Computer Programming & Information Systems, May 2025

- **Academic Recognition:** President's List, Latin Honors, GPA 3.83

INTERNSHIP EXPERIENCE

Kelm Media Group, Farmingdale NY

Intern, Jun 2024 - Dec 2024

- Collaborated with others on designing and developing websites
- Made changes to websites based on feedback received
- Hostinger was used to edit web pages and contained website databases
- Used technologies such as HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL to develop and enhance websites
- Used PageSpeed Insights to determine how website performance could be improved
- Used ChatGPT and Google Gemini to determine methods toward approaching solutions

PROJECTS

TeleShow

Senior Project, Feb 2025 - May 2025

- Worked in a team to develop TeleShow, an application that allows users to search for movies and shows to see which platforms they are available on
- Used the TMDB API to obtain and query data on movies and shows
- Helped incorporate Cloud Firestore, which was used by my team as a database, into several features
- Helped implement several features, including a comments feature in which users can write, delete, and edit their own comments
- Helped write test plans to ensure TeleShow's features were functioning as intended

StockDiviner

Software Engineering, Feb 2024 - May 2024

- Worked alongside team members to create a joke stock predictor based on several factors such as zodiac signs, moon phases, and Chinese new year animals
- Activities included prototyping, UML and sequence diagram modeling
- Designed user-friendly interfaces for login, registration, warning, login success, and registration success screens using SceneBuilder to modify .FXML files

DineConnect

Systems Analysis and Design, Sep 2023 - Dec 2023

- Worked with two team members to propose an idea for an information system aiming to streamline the gap between customers and restaurant owners
- Agile methodologies were used
- Specific duties included the following:
 - Created activity, entity-relationship, and state transition diagrams
 - Produced Gantt, PERT, and CPM charts

RESEARCH EXPERIENCE

“Creating a Cybersecurity Solution to Deal with Zero-Day Attacks”

2023 Summer Undergraduate Research Institute, Jun 2023 - Aug 2023

- Participated in a mentorship program, working alongside a faculty mentor to determine components of an evidence-based cybersecurity solution suited towards dealing with zero-day attacks
- Components of the proposed solution covered included data mining algorithms, detection models, and network intrusion detection systems
- Presented a research poster at the end of the program

EMPLOYMENT EXPERIENCE

Showcase Cinemas, Hicksville, NY

Usher, Jul 2022 - Jan 2025

- Greeted customers, scanned tickets, and provided directions to theater locations
- Scanned QR codes of movie tickets using a Zebra scanning device
- Performed “smoke checks” by holding a tablet up to a symbol on the wall of a theater and observing the theater’s temperature
- Position was team-based when not scanning tickets, working with others to ensure theaters were in good condition

MISC. EXPERIENCE

Backstage Theatre Company

President, Jan 2025 - May 2025; Vice President, Jun 2022 - Dec 2024

- Discussed semester plans with other BSTC officers
- Designed promotional materials for events using Canva
- As President:
 - Communicated with the BSTC’s advisor to determine how to approach the semester’s events
 - Additionally served as the BSTC’s Event Coordinator, helping to schedule events
